teen poets

Ever feel like nobody's listening?
Like you've got so much to say and nobody wants to hear it?

Well your voice needs to be heard and this is the place to get your message across! Let everybody know what's really going on in your life. The transition to adulthood is a turbulent time and no one understands this quite like those who are going through it themselves. There are so many emotions and issues to deal with and yet so often you feel ignored. Poetry is the perfect way to channel all that confusion and develop your own unique voice. With the chance to be published alongside your fellow young poets, you'll also get an insight into the minds of other teenagers who feel just like you!
So go on, get writing!

The best poem from each book we publish will win Love2Shop vouchers.
