IDEA GENERATOR

Here is your Idea Generator – our own version of a traditional paper fortune teller. It's filled with creative themes to enthuse and inspire your pupils.

FOLDING THE IDEA GENERATOR

1. Fold two opposite diagonal corners together, then open back up.
2. Fold the other two corners together, then open back up.
3. Turn the colour printed paper side down. Fold all four corners to the centre of the paper.

4. When all four corners are folded, it should look like this!
5. Flip the paper over then fold the corners into the centre again.
6. When all four corners are folded, it should look like this!

8. Fold the other side together.
9. Slide your thumbs and index fingers under the four flaps.
10. Rotate your hands bringing your thumbs and index fingers together. The Idea Generator will then expand and the numbers will disappear inside.

HOW TO USE

1. A pupil picks a theme.
2. Spell it out while you open the Idea Generator back and forth.
3. Then have them pick a number and open and close the Idea Generator counting that number out. Repeat.
4. Have them pick a third and final number, then lift the flap and it will reveal a theme/idea for the pupil to write about.
